Department of Pharmacy is aiming to train students with high degree of professional skills, with special sensitivity to ethical and moral concerns, comprehensive knowledge in pharmacy and health care.

Rational

Medicines are double edged weapons. Medicines can prove to be miraculous if taken in the right way but can turn into a poison if misused. It is important to learn about your medicines. This includes knowing the purpose of taking them, administration time, the right way of administration, duration of treatment, dosage, precautions, possible side effects and storage. Who can guide you on all these aspects? Your pharmacist can answer all your queries regarding your medicines and their responsible use.

Objective

Students can able to point out duties of pharmacist in different areas.
